

BioEnergetic Health Analysis & Lotus Protocol

Via Hair/Saliva Sample

Questions? Contact Trish:

trish@LotusBeWell.com

phone: 262-457-2222

Note: The client being tested must be a member of the Lotus Be Well Association to participate in this and any other walk-in therapies, classes and professional wellness services. Remember, BioEnergetic Testing is NOT diagnostic; it is an evaluation of energy flow to determine priority health issues, causes, and beneficial remedies including dietary & lifestyle changes, supplements, and walk-in therapies available at Lotus Be Well.

Please contact us prior to dropping off samples so we can get the testing time booked. Allow 5-7 business days after receipt of sample for your results to be available. Results will be emailed and you will be contacted to schedule a phone or in-person consult.

How to Collect Samples:

Saliva: Make sure your body is well hydrated by drinking a quart of water. Wait 30 minutes after drinking, and refrain from eating during that time. Salivate and rub both ends of 2 Q-tips along the inner cheek, making sure all four ends are then full of saliva. Place in a small zip lock bag or glass container.

Hair: Make sure your body is well hydrated by drinking a quart of water. Cut hair along back nape of neck getting as close to the roots as possible. Place a lock of hair, about 1/4 inch thick in a zip lock bag or glass container.

Keep samples in refrigerator until ready to send or drop off. For best results, samples must be sent/dropped off the day they are collected.

What to Send

Please place the following in an envelope and drop off or send USPS Express Mail- 2 Day Delivery to:

Lotus Be Well
